Selected by the basket ball team of the State Normal school at Cheney, following the high school tournament.

Two members of the winning team, Ward Maurer and Ed McCully of Pullman, were selected by the Normal basket ball team as members of an all-star team, following the high school basket ball tournament here last Friday and Saturday. Ed Howe of Cheney, Wade Moore of Fairfield and Harold Rumburg of Almira were the other three men awarded places on the mythical team.

The victory of the Pullman high school team over the Cheney high school team, 20 to 12, in the final game of the tournament Saturday night, gave the Whitman county champions a fairly good claim to the championship of Inland Empire high schools. Represented in the tournament were the champions of Stevens and Ferry counties, Adams county, Lincoln county and Shoshone county, Ida. Cheney won second place in the Spokane county conference.

The record of the teams during the tournament was as follows:

Almira defeated Spirit Lake in the opening game, 39 to 24.

Fairfield defeated Ritzville, 26 to 23.

Pullman defeated Colville, 25 to 11. Cheney defeated Wardner-Kellogg, 20 to 10.

In the semi-finals Pullman and Almira were matched, and Cheney and Fairfield. The scores were as follows:

Pullman, 24; Almira, 11.

Cheney, 24; Fairfield, 22.

The final game was played Saturday night, Pullman winning by a score of 20 to 12.

The silver cup, donated by the Hoxey-Lambert company of Spokane, was presented to the winning team by President N. D. Showalter. Each member of the winning team was also given a gold basket ball, while members of the second team received silver balls.

Normal School Defeats Spokane University—Wins Championship

In a game that ran into an extra period the Normal school defeated the Spokane university basketball team Tuesday night for the second time this year. The score was 31 to 29. At the close of the second half the score stood 27 to 27. During the play-off Miller made two field goals for Cheney, while Spokane university made but one field goal. The game was played on the Spokane Y. M. C. A. floor.

Tuesday night's victory was the fifteenth straight for Coach Eustis' men, and gave the Normal team the championship of the Spokane county inter-collegiate conference, as well as the minor college championship of the state.

Miller made the first score of the game on a free throw. Spokane began to score rapidly thereafter and soon had a lead of six points, but before the close of the quarter the Normal men had a lead of three points. Although outplayed in the second half, the Normal team allowed the Spokane team to take the lead. During this half the score was tied several times.

Thirty fouls were called during the game, and two of the Spokane men went out on personals. Out of 23 free throws the Normal made but nine points, all thrown by Miller. Spokane university made five points out of seven free throws.

Scoring was done by the Normal team as follows:

Free throws—Miller, 9. Field Goals—Crisp, 2; Miller, 5; Lefevre, 1; Smith, 3. Stanley Wynstra was substituted for Miller for a short while in the second half.

The game was refereed by J. Wesley Taylor.

PROVIDE CENTRAL BULLETIN BOARD

President Wants Notices Typewritten Hereafter So They Can Be Understood by Everybody.

Beginning with the spring quarter, all bulletins will be posted on the large bulletin board on the first floor of the administration building. Department bulletin boards will no longer be maintained.

"It has seemed desirable to centralize all the bulletin boards," President Showalter said in announcing the change. "It will simplify the problem of maintaining order and will be a decided convenience to everybody."

"We are asking that all notices hereafter be typewritten. This is being requested for the sake of uniformity and in the interest of clarity. Some of the scrawling notices that have been adorning the bulletin boards of recent weeks have not always been intelligible."

"Complete cooperation on the part of the faculty and the student body in this matter is earnestly desired."

Getting New Eyes

All progress is based on curiosity. Only to the inquiring mind does enlightenment come, and there can be no such thing as education which is regardless of those things that immediately surround us—the earth, the vegetables, the flowers, the trees, the rocks, the birds, the streams, the animals, the skies, and those machines through which the forces of nature work. I am conscious every day of the defects in my early education, for I should have been taught, first of all, not technical botany, but the nature of plants, the difference between plants, and the nature of the layers of the earth, and the difference between them, and all those other things that would make a walk or a drive a constant panorama of delight. As it is, I have walked through the world almost blindfolded. Our program is to give new eyes to boys and girls, and men and women.

ARRANGE BASEBALL GAMES WITH FROSH

Two Games Will Be Played With Idaho Frosh and Two With W. S. C. Plan Other Games

Two baseball games with the Idaho frosh and two with the W. S. C. frosh have already been scheduled by Coach Eustis. Idaho will come to Cheney for the first game on April 21, and on May 5 the Normal team will play a return game at Moscow. Cheney will play at Pullman on May 6, and a return game will be played in Cheney on May 12.

Conference games will be arranged at a meeting of coaches at the S. A. A. C. tomorrow. At that time the feasibility of holding a Spokane county intercollegiate track meet will also be determined.

Baseball practice will start sometime next week, Coach Eustis says. No outside work, however, is contemplated for two or three weeks.

The Pipe Organ

The organ fund is swelling,
Growing day by day;
And soon we'll have the Pipe Organ—
It will have come to stay.

So we bring our dimes and nickels
And help just all we can;
So we'll soon have the Pipe Organ,
Bought by every Cheney man.

Then all of us Alumni
Will come to celebrate;
To hear the fine big organ
We got in spite of Fate.

How we will cheer for Cheney Normal!
We'll proclaim her merits high,
While our hard-earned Pipe Organ
Sings her praises to the sky.

Blank Verse

This is examination week. From out the several Rooms of the building come students, heavy-eyed; And the downcast look on their faces betokens a Sorrow they ill can conceal. Quickly, quickly, Ah, too quickly the days have sped away! Thousands of Precious minutes, but theirs are wasted forever! In Unfinished notebooks lie buried their hopes forever!

Still stands the Normal School building. But another Group of students fill its halls and wend their way to The classrooms. In their joyful faces is seen no Trace of impending disaster. Light-footed and light Headed they pursue their journey through fast passing days; But oft in the still night they gather in groups Near the fireplace and repeat the story of those gone before. Still, the lesson of other days lingers not into their memory. Minutes fade into days and days into weeks. Thus they Fall by the wayside as others have done before them.

Miss Thelma Trumley of Denton, Montana, contributes the following as a Chinaman's version of the "profession":

All day teachie; all night markie paper;
No more lovie; no more kissie;
Poor old Teachie, Teachie, Teachie.

Jimmie's Letter

Dear Ma—Well, ma this is examination week and all the students around here is pretty well upset because at the end of this week you know whether you have passed in the things that you have been studying all quarter and begin to look around and size things up to see if you're going to get you elementary at the end of the year. Im pretty sure that Im going to get through in everything because all the teachers Ive got this quarter aint so blamed particular about little things like commas and apostrophes and Ive really had a chance to show what I could do and it wouldnt surprise me a whole lot if I was to get on the

honor roll this time although the honor roll aint what it used to be for Ive heard that before I come here and they decided they would have to tighten things up a little bit that a fellow had an awful hard time trying to keep off the honor roll. But if I get on this time youll know ma, that its because Ive really earned it. You better not say anything about this to the neighbors ma, because somebody might get sore at me the last minute and shut me off and then it would look like as if I was boasting.

Theres just one thing thats going to spoil my work for the rest of the year. You know I told you that Dr. Tieje got sore at me and handed me a flunk last quarter. Well ma, that course that he gives is one of the required subjects for an elementary and if I dont take it I aint going to get no certificate. Furthermore ma Ive got to take a lot more required subjects and in spite of the fact that Im perfectly able to do it theres a ruling of the institution or something like that that you cant take only so much work each quarter and that means I aint going to get a chance to get out in the field to teach unless I stay for summer school and make it all up. Thats going to cut into my plans something fierce ma and I sometimes dont know whether its worth it all or not but I guess Ill stay now that I have went this far.

If I was teaching in the Cheney normal ma, do you know that I wouldn't give any examinations. I know that a lot of people back home would think that was an awful radical step to take but Ive about made up my mind that its the best way after all. You see one of the things the teacher is paid to do is to learn you as you go along and if he keeps wanting to give you an examination at the end of the quarter it looks to me like a sign that he aint very sure that hes put his stuff across in vary good style and he wants a chance to check up on you. Of course ma, you understand that everybody in the class cant be flunked because that aint according to the system. If too many of them flunk thats a sign that the teacher aint got the right method and on the other hand ma, if everybody gets through its a sign that somethings also wrong with his method. Aint that a funny thing, ma. It took me a long while to understand it after I got here but Ive got it all figured out now. There aint much use trying to write and tell you what its all about ma, because Id have to use a whole lot of technical terms and chances are that if you handnt went to the Cheney normal the explanation wouldn't mean a great deal to you. But the thing that gets my goat ma, is why we have to take an examination and worry along when we know that some of us has got to flunk anyway. Ill have to figure on that a while longer before I can give you an answer that will be thoroughly scientific.

Well ma, pretty soon Ill know about whether I get on the honor roll. I wouldnt care nothing about it here ma, only I want to show Dr. Tieje up and also that girl that thought she was so smart when I asked her to go to the dance with me and she up and told me she wouldnt.

Your loving son,
—Jimmie

Mr. Smith—I would like to try on that new suit in the window.
Clerk—Sorry, but you'll have to change your clothes in the dressing room.—Pathfinder.

Mrs. Eastend—You'll not find me hard to suit, Nora.

Nora (the new maid)—I'm sure not, ma'am; I saw your husband as I came in, ma'am.—Pathfinder.

During the evening the engagement of Blanche Swinford to Ray Jarvis was announced. As a result of this Miss Swinford will not attend the Normal next quarter.

There were 12 couples attending the dance. Guests from Cheney were: Eulalie Brown, Ruth Beaumont, Grace Wollmuth, Elva Carlson, Bob Osborne, Sena Maurer and Phyllis McIntyre.

OPPOSES FREEDOM FOR THE FILIPINOS

M. E. Merriman Claims That Inhabitants of Far Eastern Islands Are Incapable of Self-Government

Granting independence to the Filipinos would be a serious mistake, in the opinion of M. E. Merriman, who has just returned from the orient, where he has lived for several years. Mr. Merriman is visiting his brother, Curtis Merriman of the Normal faculty, before going to New York. Since the war Mr. Merriman has been in the employ of the United States shipping board in the far east.

Events of the last few years in the Philippines have demonstrated conclusively that the Filipinos are as yet incapable of self-rule, Mr. Merriman maintains, and nobody who is really familiar with conditions in the far east favors granting it. A great deal of foreign capital is invested in the islands, he says, and there is abundant evidence that the Filipinos are incapable of guaranteeing foreign investments.

Mr. Merriman has traveled extensively in Japan and China during the last few years. During the war he was in service in Siberia.

TOURNAMENT WAS WELL SUPPORTED

Coach Eustis Appreciates Cooperation of Townspeople.—Small Surplus for Next Year.

Support of the high school basketball tournament was so generous that all expenses incident to holding it have been paid and a small balance remains. This sum will be used as the nucleus of a permanent tournament fund, Coach Eustis says.

"The outstanding feature of this year's tournament was the loyal support given it by the townspeople," Coach Eustis says. "Not only did the people open their homes to the visiting boys, but the attendance at all of the games was remarkable. It shows that the community approves of the type of athletics that the Normal school is trying to develop throughout the Inland Empire.

"Visiting coaches were also well pleased with the tournament and with the reception given them in Cheney. The fact that the teams which were eliminated in the preliminaries were invited to remain throughout the series was a pleasant surprise to all of them.

"Gate receipts enabled us not only to pay the transportation of the visiting teams, but also to pay for their meals while traveling. They incurred absolutely no expense on account of the trip. I am assured that the maximum of support will be given the Normal school hereafter in holding this tournament."

President Showalter is well pleased with the tournament. "Our idea in holding these annual tournaments is to encourage a wholesome spirit of athletics throughout the Inland Empire," he says. "We endeavor to keep the tournament free from all forms of commercialism, and in our endeavors to this we appreciate to the fullest extent the cooperation of the various high schools. It is a source of considerable satisfaction to us that each of the teams expressed a desire to come back again."

NORMAL TO PRACTISE POLICY OF ECONOMY

Insufficient Revenues for Institution Forces Retrenchment.—Will Be Noticeable Next Summer.

Owing to many failures to pay taxes, the revenues for the Normal school for the biennium will be somewhat curtailed, President Showalter announces. This is a condition affecting all institutions of higher learning throughout the state.

Retrenchment of a rigid character in the work of the Normal school is an absolute necessity, the president maintains, and will be noticeable in the work of the coming summer session. Plans for the summer session have not yet been completed by the administration, but a critical survey of the finances available has led to the announcement of a general policy.

Fourteen Straight!

The Normal boys' fourteenth straight victory, won from Whitworth last Tuesday night, 33 to 2, closed the Spokane county conference, although there was a technical tie between Cheney and Spokane U for the championship title. Three fouls were called on Cheney during the game and all were missed. Jack Cameron made the lone basket for Whitworth about the middle of the second half.

Miller made six field goals, Crisp five and Smith four. Miller also made three out of seven free throws.

The game was refereed by J. Wesley Taylor of Spokane.

Senior A's entertained in assembly Tuesday morning with a Butterfly dance by Ruth Aust and a reading by Frances Trimble.

OUR MUTUAL FRIEND IS HERE TOMORROW

Picture, Based on Novel by Charles Dickens, Will Be Shown to Normal Students March 11.

"If Charles Dickens himself had written the scenario and continuity, cast the players, selected the interiors and exteriors, directed, assembled and cut the film, it would probably have been no better and might have been worse than this production."

This is the opinion of an expert concerning the movie, "Our Mutual Friend," which is to be shown in the Normal school auditorium tomorrow night. Says Dolph Eastman in the Educational Film magazine:

"Whether or not you like Charles Dickens—whether with Arnold Bennett, you regard him as a second-rater in literature or you place him among the great—you can not deny the place which Dickens holds in the hearts of the multitude. The novel on which this picture is based was extremely popular for years, and is still widely read, its popularity being due not only to the complex construction of the double plot in which interest is sustained to the end, but to its unfailing humor and delightful characterizations."

"No, George," she said, "I can only be a sister to you."

"Very well," he replied, reaching for his hat, "if that's your decision there's no more to be said, but I expected a different answer. Good night."

"George," she breathed tremulously, "George, er—"

"Well," crossly, "what is it?"

"Aren't you going to kiss sister good night?"
